

Erasmus+ - Italy

I'm gonna talk about my experience in Italy. This was my first time in another country, and I loved it.

We stayed in a hotel in Novara, which was pretty close to the train and bus station, making it easy to access public transport. We went to Milan and Turin by train, for example. But we also walked to a lot of places, like the centre of Novara, restaurants, and even the school. I enjoyed walking around in Italy, since the buildings were beautiful. Everyone I talked to, was very kind.

We spent most of our time, in an Italian school. A lot of students helped us, either showing us around the place, or helping us in group projects. I could make a few friends there, even Greek ones.

We took part in many lessons, which were pretty interesting in my opinion.

I really enjoyed my stay in Italy, and I feel lucky that I could meet some amazing people.
