

Our trip to Italy

Our trip started on Sunday. It was really exciting for me because I have never been in another country without my parents before. The flight went well, and after hours, we arrived at our hotel in Novara. Novara is a small city near Milan. There, we also saw some quite amazing buildings, like the Novara Dome, which I think was really fascinating. Besides Novara, we also visited Turin and Milan, which was an exciting and thrilling experience.

Usually, we had programmes in the school but when we had spare time, we took walks and looked around the shops which were different from ours.

But when we were at the school, we always met our Italian friends and hung out with them even when we had other activities.

I also liked the food so much! In the mornings we always ate breakfast in our hotel, lunch (mostly) in the school, and dinner in the nearby restaurants. The food was delicious everywhere we went; we also got a chance to eat a traditional Italian food (risotto, pasta, pizza).

I think my favourite thing was when I could build friendships with students from Italy, and even from Greece! I met a lot of great and friendly people, and I already miss them! The surprising part is that I could also get closer to the people I travelled with (mostly 7th graders) and build a closer relationship with my classmates.

It was really an unforgettable experience for me. On the last day we all got emotional because we knew that it was the time when we had to say goodbye. On our last day in Italy, I was really sad that we had to leave, but I knew that my parents and my friends in Hungary were waiting for me. This is truly one of the greatest memories in my life and I will never forget this wonderful week.
