

ERASMUS+, ITALY

A few weeks ago, I went on a seven-day trip to Italy, and it was one of the most unforgettable experiences of my life.

I was there with 13 other students from my school and with 4 teachers. We spent the first 3 days at the school. We learnt a lot about the Italian culture.

On Thursday we went to Turin to see a lot kind of old monuments. I was really enjoying it. There were a lot of kinds of shops that I really liked there.

Also, in Novara, our hotel was really close to the city centre so we could go shopping in the afternoon. The town had a vintage style with all those old patterns and flowers.

On Friday, after school we went to Milan to see the Duomo of Milan. It was gorgeous from the outside, but when we went inside, I realized that the outside part was nothing compared to what I saw inside. It was so nicely decorated. I had never seen anything like that before.

The food was also very delicious there. I ate a lot of kinds of pizzas and pastas there and I was never disappointed by them.

I was really sad when I had to say goodbye to all our Italian friends, but I was also very happy that I could bring happy memories home.
