

ERASMUS+

On Sunday we met the group at the airport from where we arrived in Italy a few hours later. From there we took a bus to Novara, where we went to look around a bit before we could check into our hotel room. That evening we went to a very nice restaurant.

On Monday we visited the school and met our friends, who showed us around the building. On Tuesday we were able to sit in on many interesting lessons and see what school is like in Italy. On Tuesday we even painted a picture on their wall of the three Erasmus+ countries, that was my favourite part of the trip. On Wednesday we went to explore the Basilica in the city (where we went up really high). The view from up there was awesome and I took a lot of pictures. After that we went shopping with some of our Italian friends. On Thursday we went to Turin by train. The train station there was beautiful, it looked a little similar to one of ours in Hungary. We explored a lot of places around the city and found Kossuth Lajos's home and statue. After that we had lunch and had some time to go shopping before we had to leave Turin. When we got back me and Zétény went to check out the gym in the hotel. After that we went back to the school and had a PE class, and a yoga class which was really funny. The last full day we had was Friday and we went to the school to do some robotics. And then we went to Milan where we explored the Duomo from the inside, and the outside. The view from the top was really nice and it was the last time we met the Greek kids. After we got back, we had our last sleep in the hotel.

On Saturday (last day) we had a last look around the city and took the bus to the airport. When we got there, we took the plane in about two hours and arrived in Hungary. The trip was a great experience and I'm so thankful that I was chosen.
