

Our trip to Novara

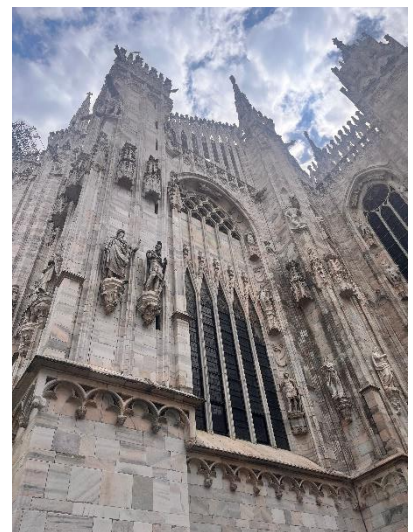

In April some Italian students visited our school and students from here could go to their school as well. I was one of the 14 students who were chosen to go there.

I was very excited about our trip to Italy. It was great to meet with our Italian friends again. We travelled by plane and from the airport we went by bus. We stayed in a hotel in the city centre of Novara.

On Monday we went to the local school. Greek students joined us during our trip there. We had an ICT lesson where we programmed robots. We dubbed a part from the Harry Potter movie in the English lesson. We talked about the environment and technology, and we had P.E. lessons as well. We even painted a mural to commemorate our visit. They showed us around the school. It's an older building than our school's one but it's still nice.

We walked in the city, and the geography teacher told us interesting things about the town's history. We climbed up to the town's cathedral. The view was beautiful from up there. On our fourth day we travelled to Turin. We saw beautiful buildings like Mole Antonelliana which is a cathedral in Turin. We walked on the riverbank as well and we visited Lajos Kossuth's old house. We travelled to Milan too. We visited the cathedral there. It was really beautiful inside. We even went up to the terrace. On our last day we said goodbye to our new friends. It was really sad because we didn't want to go back home. Overall, it was a great experience. I have learnt a lot of new things and my English has improved a lot.
