

OUR ITALIAN TRIP

Our trip started on Sunday when we arrived in Italy by plane. After that we had a tour in Novara we eat dinner in a restaurant and tried the Italian pizza.

At the school we had a lot of programmes that I really enjoyed, such as painting a wall in the school, the chemistry class and the robotics lessons.

We tried various dishes like the famous Italian pizza, also the Carbonara and I tasted the risotto that I didn't like that much. In addition, the food was very delicious in the school as well.

When we arrived in Torino with some of the Italian students and went to the centre of the city. It was very wonderful and exciting. Then we visited the Mole Antonelliana Museum.

On Friday we had some lessons that day too. Then we had our last event with the school and our friends before saying goodbye. We got gifts from the school.

For a last programme we went to Milan. At first, we went to the cathedral of Milano. It is the biggest cathedral of Europe. We went to the top of it.

This trip was a great experience for me.
