

Erasmus+ trip to Pula, Croatia

Thanks to Erasmus we got a chance to visit the beautiful Pula in Croatia.

On the first day we arrived at the school where little children sang and danced to welcome us, then we were shown around the school. Next, we took a part in a P.E class where we defeated the Croatians in a sports competition. In the afternoon we went to Rovinj where we walked around the old town and visited the Saint Euphemia church.

The next day, after some lessons we walked at the port part of Pula with a guide and learned about its history, the people who once lived here and their heritage. Then, went back to the school and had lunch. After that we went down to the port and had a boat trip. On it we saw 14 islands and some seagulls.

On Wednesday morning we went to the Kamenjak National Park and got to know the wildlife. In the national park's area, a long time ago there were dinosaurs and we saw their footprints. After lunch we visited the beach near our hotel and went to a shopping centre where we looked around and bought a few things.

On the fourth day we sat in an ICT class at school where we talked about cyberbullying. Next, we tested our skills in a pottery class while making clay plates. In the evening, we were had a farewell party where we listened and danced to Hungarian and Croatian music.

On Friday, the last day we did tasks about a text in an English class and tested our knowledge in groups with the Croatians about Croatia and

Hungary in a quiz. In the afternoon we swam in the sea and went to an aquarium, we saw lots of interesting underwater animals. We watched the sunset on a cliff and saw some dolphins too.

On the trip I got to know Croatia better and I made friendships with the Croatian students.
