

OUR TRIP TO PULA

I got an opportunity to go to Croatia. These are the things I experienced.

On Sunday, April 6th, we left from school by bus to Pula. The journey took about 10 hours. We arrived at the accommodation by 7 PM.

On Monday, we went to school. We were greeted with songs and dances. The school's name is Osnovna škola Vidikovac. That day we went to a Croatian physical education class where there was a basketball match. In the afternoon, we went to Rovinj and visited the local church. After that, we could wander freely in the town.

On Tuesday, we got to know the landmarks of Pula and the memories of famous people. We only went back to school for lunch. We spent the afternoon walking and shopping. We also went for a boat ride.

On Wednesday, we went to Kamenjak National Park together with some Croatian students. We saw many interesting things.

On Thursday, we attended a few classes, for example computer science, pottery, and music. In the evening, we went back to school to party with the local kids.

On Friday, we attended an English class, and then there was a quiz game with the Croatian children. In the afternoon, we went to the aquarium in Pula. In the evening, we organized a quiz game for ourselves. It was called 'Half of it is not true,' because there was one question and three teachers. We had to choose one of the three teachers, and they provided an answer, and we had to figure out whether it was correct or not. My team won.

On Saturday, we set off home at 9 AM. We arrived back at school by 7 PM.

I thank Erasmus+ for the support, the school for choosing me, and my teachers for the preparation.
