

Our trip to PULA

On the first day we went to the school to an opening ceremony of the program. Then Croatian teachers showed us their school. Later we participated in a P.E. lesson. In the afternoon, we went to Rovinj with some Croatian students, which is a beautiful city on the seaside. I liked the historic buildings and the old streets.

On Tuesday we were walking in the city with a tour guide, she told us interesting information about the buildings. In the afternoon we were on a boat trip around some islands. The weather was very pleasant.

On Wednesday we went to Kamenjak National Park with the Croatian students. We saw footprints there which were supposed to be dinosaur footprints. It was very interesting. There were a lot of nice plants and trees in the park, we learned about them too. In the afternoon we went to the beach and then to a shopping centre where we had a light dinner.

On Thursday we went to school again where we attended an IT lesson, a ceramics session and a dance class. I think the ceramics lesson was the best. In the afternoon there was a party at the school with music, dancing and food and drinks. It was fun.

We spent Friday morning at the school again. We participated in an English and a music lesson. In the English class there were two projects, where we listened to a story and then we had to answer some questions and make a poster. In the music lesson we sang songs together with the Croatian kids. Later there was a quiz with mixed groups and we had to answer questions about the Hungarian and Croatian history and culture. In the afternoon we went to the beach again and we swam in the sea. It was extremely cold, 15 degrees! We saw some jellyfish too. We also visited an aquarium which was really good. In the evening, we watched the sunset and after dinner we had another quiz for the Hungarian students. It was in connection with our Croatian trip.

On Saturday we travelled home with a lot of nice memories and experiences. I'm really happy that I could take part in this journey, it was very useful and great fun.
