

Our Erasmus Trip

With the 2025 Erasmus program we had an opportunity to travel to the Croatian city Pula

On the first day we started walking to the school which is called Vidikovac skola, approximately it was 30 minutes away from the hotel on foot. We listened to a presentation which were presented by the younger children and the older ones danced to it. After that they gave us a tour of the school, a bit later we were participated in an obstacle course and a basketball match. We had a lunch, and we got back to the hotel. Afternoon we visited Rovinj it's a really beautiful city, we explored it and we bought some things there.

On the second we were given a tour of the old town of Pula; they talked about the history of the city. Later that day we went to a boat trip where we saw 14 islands, it was a bit cold and windy, but it was enjoyable.

On the third day our group visited a national park called Kamenjak, it was really beautiful they guided us through the park. After lunch we walked to the seaside and to a shopping mall it was big, we bought many things for example a jersey.

On the fourth day morning we went to the school where we were in a pottery class and in an IT class the students shared their experiments about cyberbullying. In the afternoon we got some free time in Pula, later the Croatians invited us to a farewell party, we could listen to Croatian and Hungarian music. We enjoyed this programme very much.

On the last day morning our group participated in an English class and a quiz. Finally, we swam in the sea, it was really cold, but it was enjoyable. At around 16.00 or 17.00 we travelled to an aquarium. There were a lot of interesting fishes and other marine animals, it was really fun.

This was a fantastic experiment for all of us and for the teachers too, we met a lot of people, and we saw many new places.
