

## **Croatia**

I was one of the 15 students from the 7th and 8th grades who could go on an Erasmus+ trip to Croatia. 4 of our teachers came and we travelled by bus. We had a 10-hour ride, but it was worth it. We have seen many new, interesting things. We stayed in a hotel where we got breakfast and dinner. The hotel had a volleyball field, a football field, an old playground and a big swimming pool, and there weren't other residents there. At the back of our hotel, we found a smaller building, that we explored and it was full of graffiti. It was very exciting. We had rooms for 2 or 3 people. We got up at 7:30 AM or at 7:00 AM and we had to go to bed at 10:00 PM. The food at the hotel wasn't bad.

On Monday we went to the school, we saw a performance, that the students prepared for us. They were really kind. Some teachers and 4 girls showed the school to our teachers and us, and we had some lessons. In the rest of the afternoon, we went to Rovinj. We explored a small part of the city, then we went to some small shops. Rovinj was beautiful. After getting back from Rovinj we stayed in the hotel.

On Tuesday a woman showed us around Pula. She showed us 13 interesting places. After that we went inside the amphitheatre. We went to the school where we had lunch. From 3 PM till 5 PM we were on a cruise. We had some free time in Pula. We went back to the hotel. We had dinner, at 10 PM we went to bed.

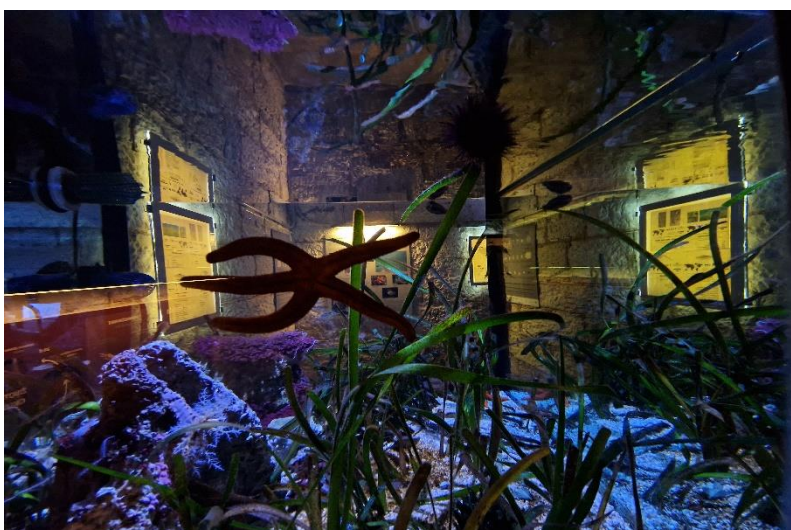

On Wednesday, after school we went to walk around Kamenjak which is their National Park. We had lunch there. We also made some postcards. We went back to the hotel, and we had some free time. The beach wasn't far, so we went to see it. We also went into a Shopping Centre in small groups. We went to bed at 10 PM.

On Thursday we were mostly at the school. We went to an ICT class, music class, dancing class, English class and we tried pottery too. We had half an hour free time. We had lunch and we went back to our hotel. There was a party in the school, so we went back. We got back about 7:15 PM. We went to bed by 10 PM.

On our last day in the city, we went to school where we had some quizzes, and we gave them some presentations about our school and city. They also showed a presentation about their school. After that we had lunch and said goodbye. The beach was near to our hotel so we could swim in the sea. We went to a place named Aquarium. As it is in its name, it had many different beautiful aquariums. It was really nice. The seaside was really close, and we heard that we could see dolphins in the sunset. We did! We saw about 5 dolphins. They were very cute. Then we went back to the hotel. We went to bed at 10 PM.

Our trip to Croatia was amazing. We found some really good friends. I still keep contact with them, and it was really hard to say goodbye. I also learned some things from them. I was a good

experience. The teachers were also kind and helpful. I'm really happy that I was one of the 15 students who could experience something like that, and I hope I will have a chance to go on an Erasmus trip again.
