

Erasmus Croatia

Let me tell you about my experience of our one week in Croatia by Erasmus+.

The journey was long, but we enjoyed it because we listened to music and we talked a lot. When we arrived at the hotel, we packed out our bags and suitcases, then we had dinner.

On Monday morning we had a delicious breakfast. Then we went to the school (its name is Skola Vidikovac). We were warmly welcomed. The programme started with a nice show, they danced for us, gave us fruits and tea. After that we were guided through school. I think we were still before twelve a.m. when we had a PE class where we had to show our skills in sports and we competed against the Croatians in basketball. Then we played volleyball with some Croatian girls in the break, and I think we built a good relationship with them.

In the afternoon we visited Rovinj which was really beautiful. We ate ice cream and the best thing in Rovinj was that we had free time there.

On Tuesday we had a tour in Pula, our guide was a woman named Sasha. She talked about Pula's history. It was interesting, but quite long... After that we visited the amphitheatre. We ate lunch at school. In the afternoon we had a boat tour, we visited fourteen islands. It was beautiful, but it was cold too... Then our teachers gave us free time to look around and shop in Pula.

On Wednesday we were in a national park called Kamenjak. we were guided there too but I don't remember the tour guide's name. In the afternoon we could shop in the local shopping centre.

On Thursday at school, we had I.C.T. and pottery classes. Then we made our presentation and showed our video about our school, Szent István Primary School. After that we had lunch. In the evening, we had a little party in the school. There was music and we 'danced'. After the party we said goodbye to our Croatian friends.

On Friday we swam in the sea (it was very cold). Then we went to the Aquarium that Eszter néni loved (she's our biology teacher). And we watched how the sun goes down. We also saw dolphins.

Fun information: we played football every single night!

Our journey home felt shorter while it was the same as the first one, so it was quite fun.

I feel very pleased that I could be there!!
