

My experience in Pula

Made by: Bukta Botond

Before we went on our journey, me and my parents had written a list of all the things I might need in Pula. The list was quite long. The day before my father went to the supermarket and bought me some snacks and drinks. The next day was the day when me, my friends and four teachers got on a bus and went to Pula.

I didn't take photos in the bus but I really enjoyed the journey. It was pretty long so my back hurt that night.

On the first day we went to Rovinj. It was a beautiful town. We went to check out a temple and it was really quiet. There were about 50 people but it was quiet like it was night time. I also ate the best pizza in my life. I took some pictures of the town and the temple.

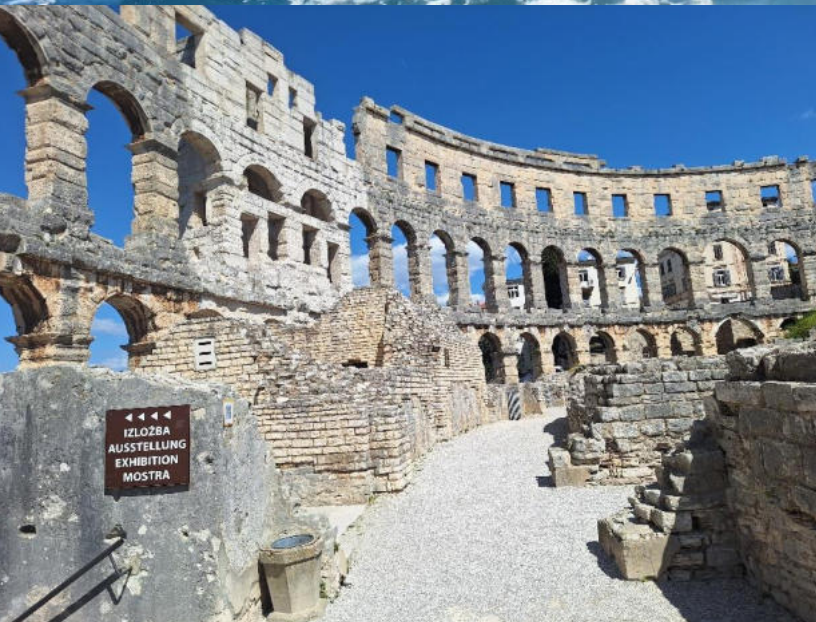

Before Rovinj we had to check out the school first. The school was very big and it had 3 or 4 floors. We had a P.E. lesson where we played basketball against some 8th graders. We won the first match but we lost the second game badly.

On the second day we were guided by a tour guide in Pula. The tour's title was Badass People in Pula. I really liked the tour, mainly because it was something new and it was in English. Pula is a really big city but it's also a little bit like a village, and I like that. On the same day we went to the colosseum. We had a boat tour on the sea, it was planned to be longer but the weather made it shorter.

On the third day we went on a tour again but this time it was about dinosaurs and nature. The tour was pretty fun and exciting. At the end of it we had to make a card which reminds us of the tour.

On the fourth day we had a lot of classes like art and singing. At the end of the day we went back to the school and we had a disco. There weren't lots of kids but even so it was good. I don't really like discos and dancing but I enjoyed it. The day was amazing, it's still on my mind. The most surprising thing was that the teacher learned a dance for the disco. We listened to Hungarian and Croatian music as well.

We formed a 'train' from the people and the person at the front controlled us where to go. It was quite fun.

On the fifth day we had some classes and activities at the school. We went to eat our last lunch in Pula and we chose the school to eat in. We always ate lunch in the school. The lunch was a 3-course meal. The soup wasn't bad but it wasn't great either. The main meal was really tasty, it was pasta with clams, the dessert was tasty too. After school we went to an aquarium, it was really fun and it had 2 floors. The 1st floor had the fishes, the tortoises and the alligators. The 2nd floor had the cool animals like big turtles, sharks and octopuses. I liked the octopuses the most.

On the last day's morning we packed up our stuff and we went down to eat our last breakfast in the hotel. After breakfast we went to the lobby and waited for the teachers. We took out our stuff to the bus and put them into it. On the way home I was thinking about how good this trip was and how strange it will be not to talk in English.

It was the best school trip I have ever had. In summary it was a really good trip and I'm grateful to the teachers to choose us for this mobility.

Thank you for
