

## My adventures in Finland

Looking back at that one week in Finland, I think that was one of my best experiences in my life. I'm really glad that I could visit a beautiful Scandinavian country with such a wonderful team.

When after a long flight we finally arrived in Finland, I was super excited about the road ahead of us. I was sure that it will be an unforgettable adventure, but I would have never thought how amazing this place will be. We could see the beautiful and calm Helsinki, with a lot of typical Finnish buildings and trams. In the second day I was very amazed by the huge train station in Tikkurila, it was really unusual for us to see the kind of trains like those.

When we arrived in Kuopio, I also could feel the calmness in it. I think it's a characteristic Finnish thing, that you can feel everywhere in Finland. Kuopio was a fully impressive place for me, for example I really loved the feeling of the town, the interesting museums, the old church, the port that we visited, and the beautiful main square surrounded by malls and vendors. It was fantastic to gain insight to a Finnish school, called Kuopion Klassillien Lukio. The children there are really different from us, just like the whole learning process. Their time schedule is not the same, they apply more modern gadgets in the classroom, and they can use more electronical devices. We had some students who helped and navigated us during the time that we spent at school, and they were really kind, so luckily, we still can chat online with them. We learnt a lot about the Finnish culture, the attitude of the people there and the traditional Finnish habits. We also could hear some Swedish language and some good advice about psychology. The time that we were spending in the hotel was really fun as well, I really loved the team and mood there.

I am very satisfied and I'm thankful that I could participate in this trip. I hope that once I can go back to Finland, because it was an amazing journey!
