

Finland

We were in Finland for a week with Erasmus+ programme and this is my opinion about the trip and the country.

First, we had a very long flight. It was 3 hours long! But surprisingly none of us got bored. In fact, we really enjoyed it.

After that we stayed at our first hotel in Helsinki for one night. We arrived around 10 pm so we were tired. We had a nice sleep and in the morning we had breakfast. I really enjoyed the Finnish food.

After that we went for a bit of sightseeing in the city. There were a lot of people on the street, but the streets were very big, so they weren't really crowded. But it couldn't last forever so we packed our stuff and went to the train station. The train station was big and had shops in it! While we were waiting for the train we looked around and saw that everything was clean. The same goes for the train itself. The seats were comfortable, and the sights were beautiful. It's called „The country of the thousand lakes” for a reason. We saw lakes everywhere!

After that we arrived at our second and final hotel. It was a great hotel. We could exercise, play and eat tasty meals. The rooms were all unique. But we had a very good room which made the trip even more enjoyable.

The schools were very interesting. They were very different from our schools at home. They are much more modern and give students much more freedom. Even more they had couches all over the building. Finnish education system is

very good but not perfect and should be improved especially in the younger classes.

All in all, I really enjoyed Being in Finland and I hope I can go back someday.
