

Finland

We were in Finland for an Erasmus trip.

I was really excited about it. It all started on May 11 at Budapest Airport. We arrived at the airport at 16.00 and our plane left at 18.50. We slept one night in Helsinki then we went sightseeing in the downtown. We went to Koupio by train on Sunday approximately at

14.00.

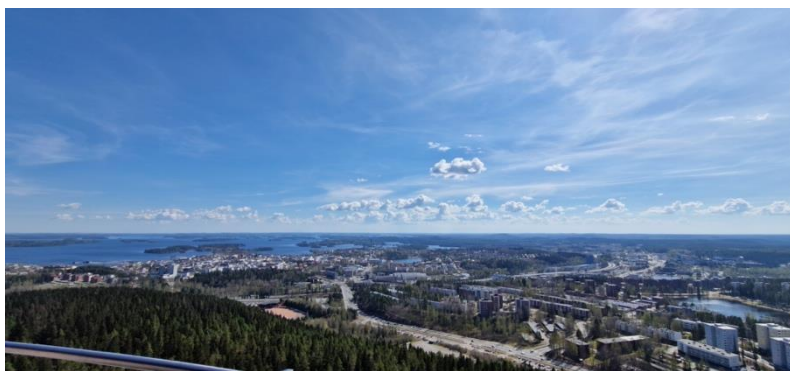

On Monday we went to the first school called Kuopion klassika lukio. The students introduced their school to us, then we had lessons. In the afternoon we visited Kuopio and its attractions.

On Tuesday we performed our presentation about Dunakeszi and our school. After school we went to two different museums: Old Kuopio Museum and Museum of Kuopio.

On Wednesday as usual we studied in the school then the history teacher told us things about the Finnish history, and it was really interesting. In the afternoon we visited the Puijo Tower. In the hotel we played minigolf.

On Thursday we went to another school called Hatsalan. It is a primary school and its quality wasn't that good as the secondary school. In the afternoon we went to a mall to buy souvenirs and eat lunch. In the hotel we played billiards and minigolf again.

On Friday we went to Klassika for a last time then we went to a burger restaurant. Then we had an interesting night: We woke up at 00.30 because of a fire alarm. We were standing in front of the hotel about 2 hours because there was smoke in a conference room.

On Saturday we were just travelling home.
