

Journey to Finland - with the Erasmus+ program

With the Erasmus+ program, 17 students and 5 teachers from our school were able to travel to Finland in May. The goal of the program was development.

Everything was fine at the airport and check-in went well.

After a two-hour flight, we arrived in Helsinki.

Helsinki is the capital of Finland, which is a nice and clean city, we spent one night here in a nice small hotel, where we also had breakfast.

The next day, after a 4-hour train ride, we arrived in Kuopio, where we stayed in a clean small hotel. The hotel also had a wellness section and gyms, which the students could use with the help of a wristband.

There was also a nice little lake nearby. It was also possible to play mini golf and billiards when we rented rackets.

We went to school every weekday, where we also attended classes. The students were kind and helpful, they were happy to answer all our questions.

We took part in different programs in the afternoon. We also visited the Puijo Tower, the Kuopio Museum and the Old Kuopio Museum.

From time to time, we also had the opportunity to go shopping, which every student took advantage of. We bought gifts for the family.

On Friday night, there was some smoke in our hotel, so everyone was evacuated by the firefighters, but this made our trip even more adventurous.

On Saturday, after 13 hours of travel, we arrived home and told our parents about our experiences.

Overall, I really liked the trip, if I could, I would like to experience it again. I hope that in the future I will have the opportunity to travel abroad with the Erasmus+ program.
