My experience in Finland

Made by: Gergő Albel 7/C

Before our flight

Before our flight we had to meet at the airport

I was very excited,but also a little bit sad, because I had never been abroad without my parents

After getting through the safety check we had a little bit of free time, but I didn’t go anywhere

This was us at the airport

After we landed

After arriving in Finland we had to take a little walk to our hotel

My suitcase was big and heavy so it was a little bit hard for me

After getting to our hotel(where we stayed for one night) we slept well

The next day

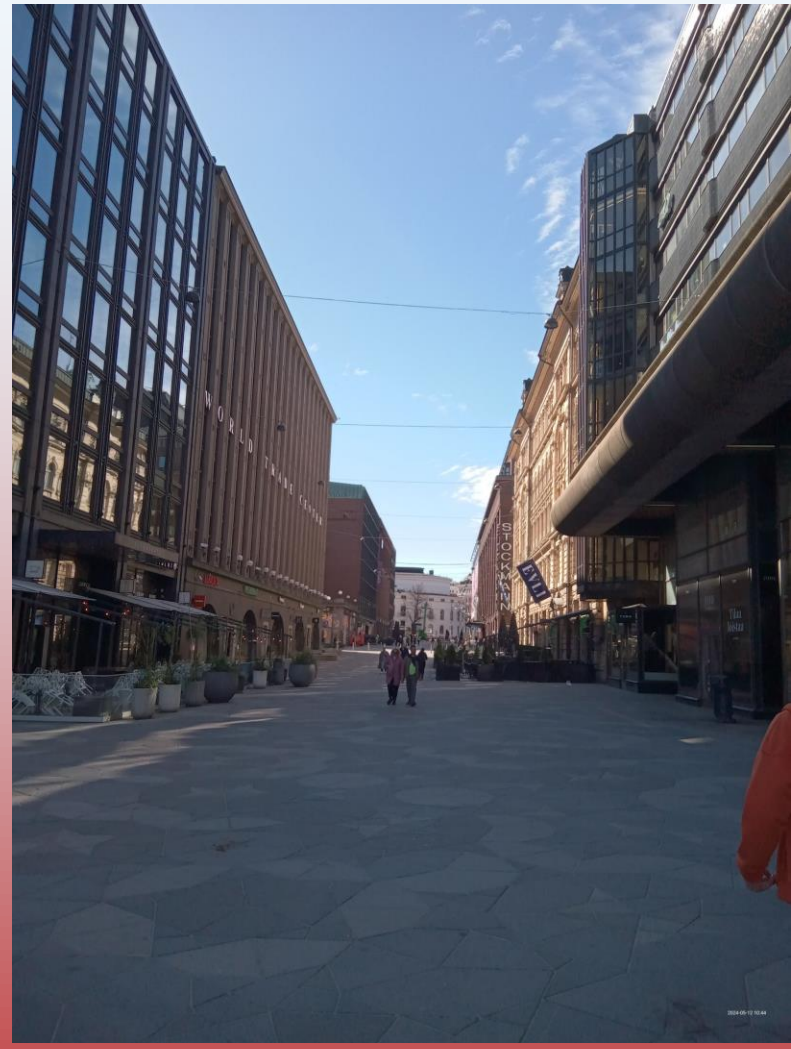

The next day was special, because we could go and take a look around a part of Helsinki in small groups!

I was completely amazed how clean Helsinki is compared to Budapest!

There were so many beautiful buildings!

Sunday

On Sunday afternoon we travelled quite much

When we got to the train station we had an hour to spend so we went to Burger King, because everybody was hungry

After eating, there was a little incident. The train came to a different platform not to the one it had been meant to! We had to hurry a lot!

We travelled on the train for four hours,but it was worth it because the hotel was beautiful

These are pictures I took during the trip

The school

The school was BEAUTIFUL and it was very big

The school wasn’t very far from our hotel, only about 25-30 minutes away by bus

The teachers and students were very kind and friendly

The surprising thing was that the students don’t have books, they have laptops

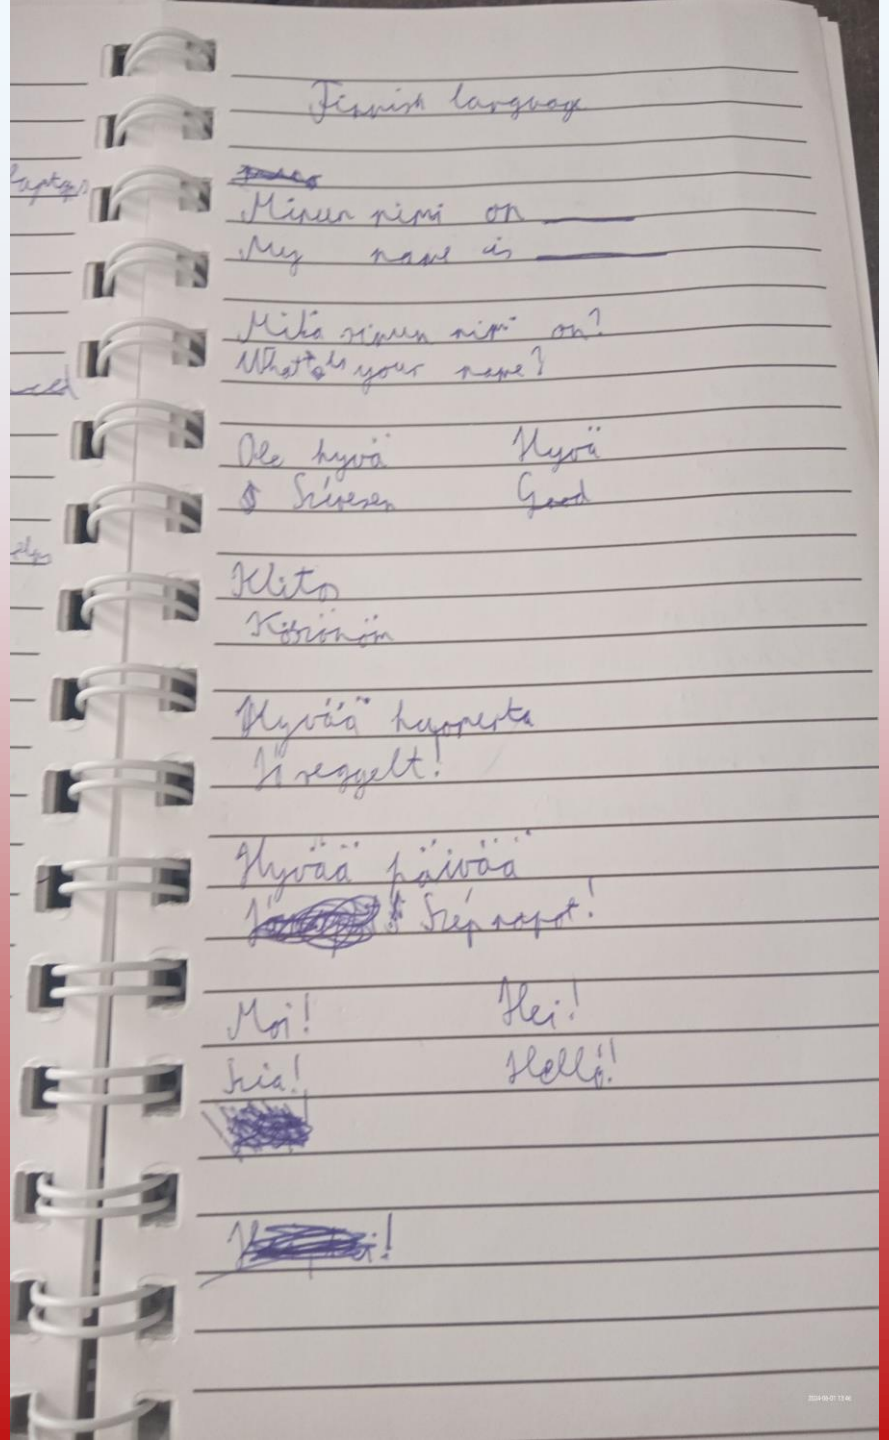

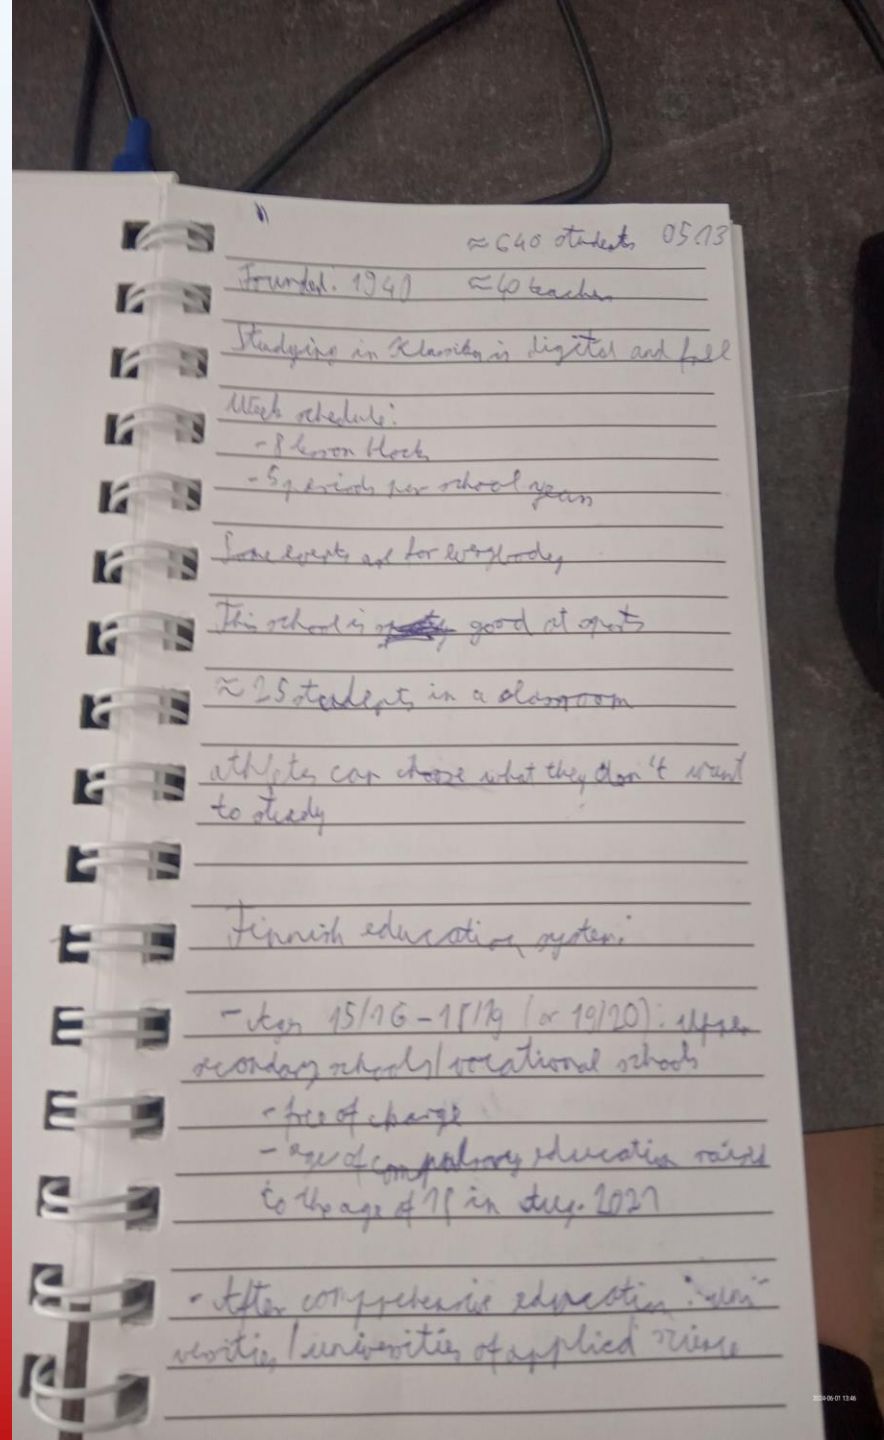

The classes

A lot of people asked me if we participated in the classes,and my answer was always yes!

We brought an exercise book,and some pens,and wrote down what we saw in class

On the first day,we learned about the school,and the Finnish language

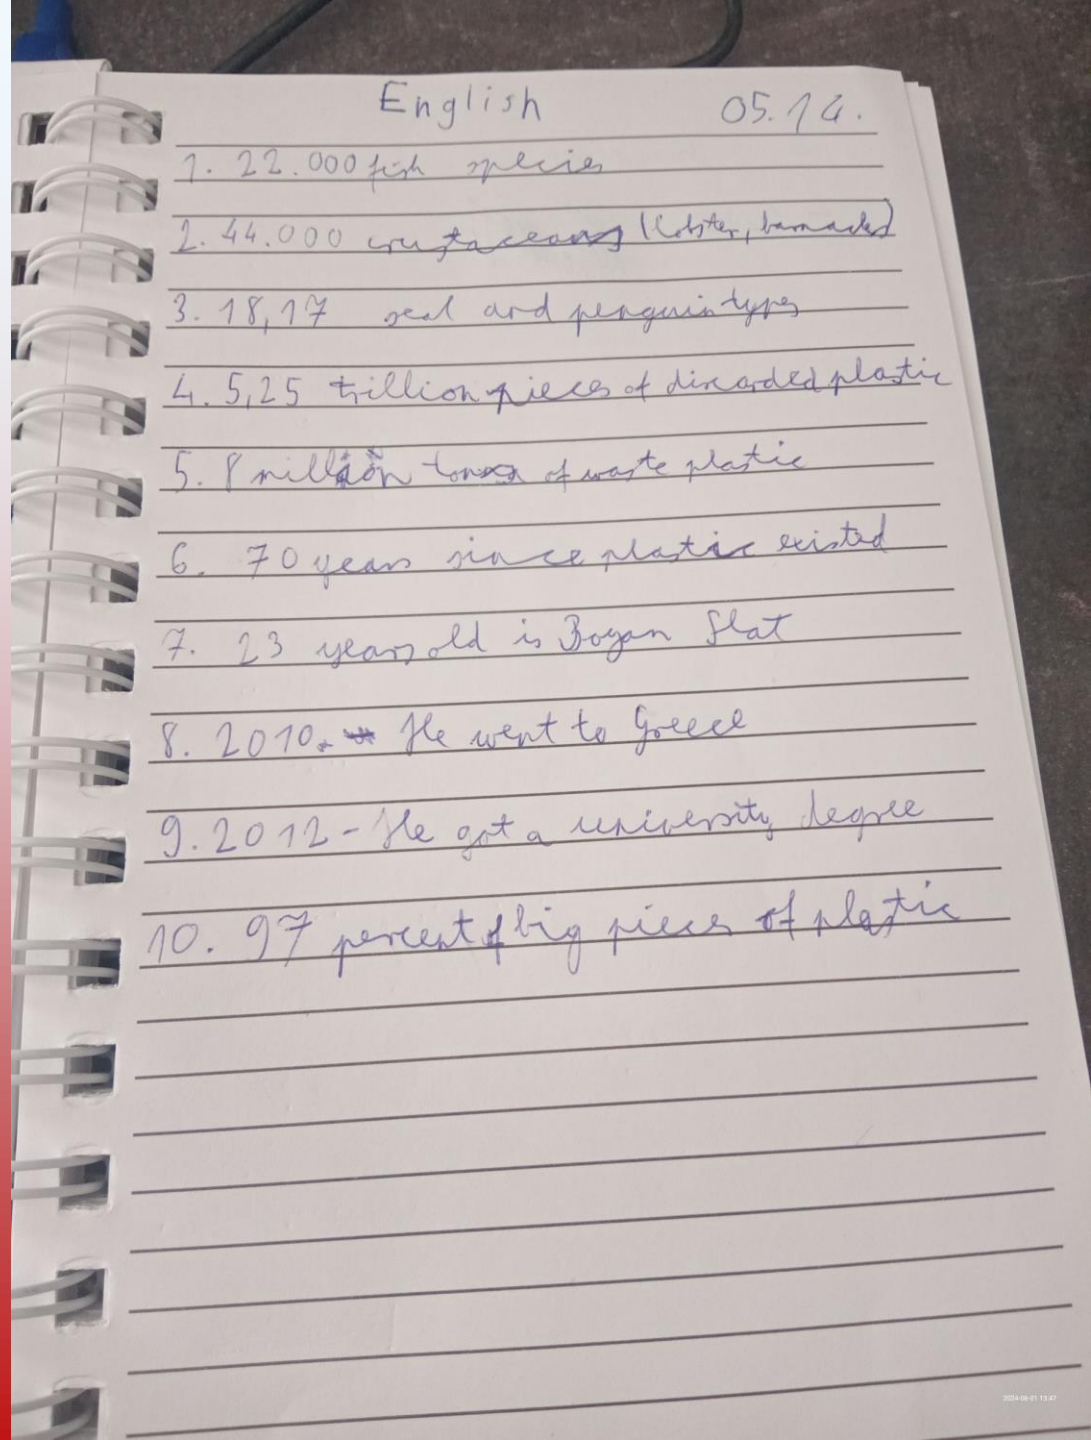

The classes

We could choose what classes we wanted to go to!

Sometimes we actually chose the class, but sometimes we let luck to decide what classes were left,and we chose from those

My personal favourite was English,because the teachers were very kind!

Free time activities

After school we had free time, so we went to a lot of different places

For example: We went to a hockey court

We went to a church

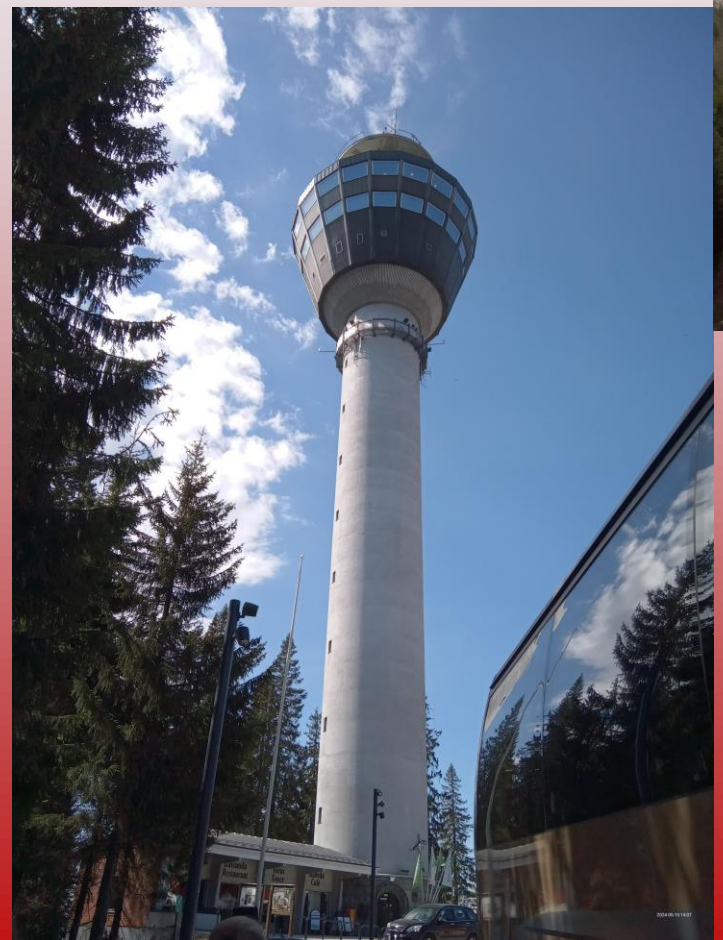

And we also went to a shore where we could relax a bit

Puijo Tower

We didn’t only go to the previous places!

We went to Puijo Tower! The view was so amazing from up there!

Museums

We went to two museums, the first one was an older one and the second one was newer

What's really important is that the older one was once in Helsinki but they decided to move it away a little bit and keep its form

The newer one had a part,where it showed a lot of monkeys,and animals from the past

This was an AMAZING experience,and I am very happy to be a part of it!

Thank you for your time!
